Invoiceflow

Minimize manual intervention, save time and **simplify** accounts payable.

Invoiceflow automates your entire invoice processing lifecycle—from capture to payment. Skip chasing approvals, avoid duplicate payments, and gain visibility over payments. More time on strategy, less on paperwork.

What we solve?

Realize Savings
Avoid late fees and capture early payment discounts.

Manual Work
Automate data capture and invoice processing.

Mismatch and Missed Payments
Avoid delays/ overpayments with 2-way/3-way match.

Vendor relationships
Ensure timely payments and smooth vendor collaboration.

Lack of Visibility and Control
Gain real-time invoice & payment visibility through dashboards

How we do it?

Step 1
Capture, Store & Extract
Capture invoices from all sources & in all formats, extract key data using OCR.

Step 2
Invoice Validation
Automate 2-way/3-way invoice match against PO, GRNs & Contracts

Step 3
Invoice Processing
Automate invoice routing for approvals with custom workflows

Step 4
Manage Invoice Exceptions
Route exceptions to the right stakeholders instantly with smart workflows

Step 5
Reporting & Dashboards
Real-time visibility into payments with customizable dashboards

Testimonial

"There was a predominance of manual work in the purchasing department, from filling OCR sheets to assigning GL codes for every product. Mundane tasks created monotony, resulting in a time crunch and enhanced scope of error - impacting productivity"
Accounts Payable team.
