Aavenir

Obligationflow

Maximising contract value has never been easy. **Until now.**

Identify, Track, and Fulfill Obligations

Aavenir ObligationFlow empowers enterprises to identify, track, and fulfill obligations seamlessly. Leverage AI-powered workflows and real-time insights to mitigate risks, enhance collaboration, and drive efficiency—all while maximizing contract value.

What we solve?

Manual Efforts & Errors
Speed up obligation identification with AI recommendations

Disconnected fulfillment Data
Integrate SLAs, payments, and proof of fulfillment.

Visibility Gaps
Real-time obligation performance and workload dashboards for tracking.

Revenue Leakages
Track penalties, credits and incentives tied to obligations.

Compliance & Risks
Ensure timely fulfilment and avoid legal risks.

How we do it?

Step 1
Extract Obligations
AI-powered identification of contract terms and obligations.

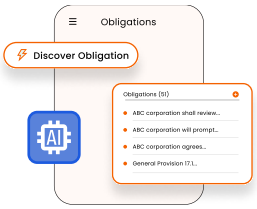

Step 2
Assign Obligations and Tasks
Categorize and delegate obligation tasks with workflows.

Step 3
Fulfillment Completion
Collaboration and submission of fulfilment proof.

Step 4
Monitor & Act
Dashboards and alerts for proactive action.

Aavenir

Key Capabilities

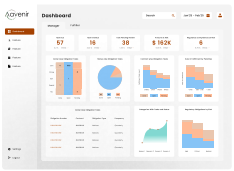

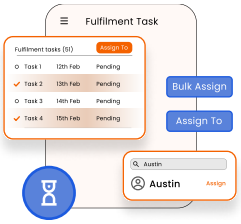

AI-Powered Obligation Extraction

Automatically extracts obligations and key terms from structured and unstructured documents.

Real time Dashboards & Reporting

Provides comprehensive dashboards to track obligation status by vendor, contract, department, or owner.

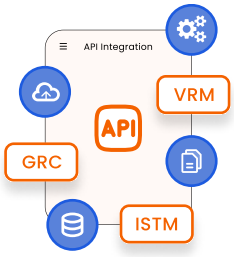

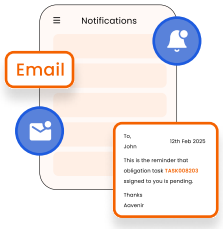

Digital Workflows & Task Assignment

Supports multiple stakeholder ownership model for clarity in responsibility allocation.

Integration with Enterprise Applications

Provides API and ServiceNow based integrations for connectivity to any CLM solution, ERPs and fulfillment data systems.

Alerts & Notification

Offers customizable reminders for key contract events and obligation deliverables, ensuring stakeholders remain informed.
